### PROFESSIONAL SUMMARY

---

Full-stack developer with 4 years of experience in agile software environments, progressing from QA intern to software engineer. I bring a strong foundation in both frontend and backend development, with hands-on experience in Ruby on Rails, Vue.js, and AWS. My background in QA gives me a sharp eye for edge cases, system behavior, and writing reliable, well-tested code. I am eager to contribute to a collaborative team that values growth and learning opportunities.

### CERTIFICATIONS

---

<b>Codecademy</b>	HTML/CSS, Javascript, Bootstrap, JQuery, Data Analyst Career Path	2021
<b>Georgia Tech</b>	Full Stack Developer Bootcamp	2022

### TECHNICAL SKILLS

---

**Languages and Frameworks** : Ruby on Rails, Javascript, Python, C#, .NET, HTML, JSON, CSS, MEVN/MERN, jQuery, React Vue, Next, Node, ExpressJS, Bootstrap, RESTAPI, Sequelize, Spanish

**Databases** : SQL (Postgres, Redis), NoSQL (MongoDB) DynamoDB

**Testing Frameworks** : Postman, Playwright, Qase, Manual Testing, Blackbox testing, Whitebox testing

**DevOps and API Tools** : Git, Docker, Swagger

**Cloud and Security Tools** : AWS, Heroku, Linux, Vercel

**Others** : Experience with messaging APIs and integrators such as hubspot, twilio, shopify, mailchimp and other third party vendors, Sidekiq

### EXPERIENCE

---

#### SpringBig

Remote

**Junior Software Engineer** | January 2024 - March 2026

- Performed root cause analysis on reported bugs across the Ruby on Rails backend and Vue.js frontend, identifying issues and proposing targeted solutions across all teams.
- Redesigned full application pages by translating Figma design files into production-ready Vue.js components
- Built a React Native tool to automate the creation of S3-hosted web wallets, enabling client success managers to independently provision test wallets without developer involvement

**Quality Assurance Analyst** | November 2022 - January 2024

- Led QA efforts across platform, native app, and integrations teams to design comprehensive test plans covering black box, white box, edge case, and regression testing
- Created test plans using QASE for a user permissions feature that introduced a role-based profile and permissions system to the UI. Tested all api related permissions across the platform for possible security risks.
- Used instrumentation to diagnose and analyze bugs directly in the code

**Junior Quality Assurance Analyst** | June 2022 - November 2022

- Worked within an agile scrum team to test tickets for the integrations team, which maintained connections with 20+ third-party providers across multiple areas of the application

**Quality Assurance Analyst Intern** | March 2022 - June 2022

- Gained foundational experience in agile development and scrum methodology
- Prepared weekly regression ticket, created test plans, and executed black box testing for the integrations team

#### Hechinger Report

Remote

**Data, Product, and Design Intern** | June 2021 - August 2021

- Built an interactive HTML/CSS/Javascript data visualization accompanying a published article on sex education
- Cleaned and formatted raw datasets to prepare them for visualization and analysis using NumPy, pandas matplotlib, and Seaborn

### ACHIEVEMENTS

---

#### SpringBig

- Led the ingressions team in ticket throughput, individually processing 100+ tickets
- Earned recognition as one of the highest-performing QA Analysts on the team
- Responsible for 20% of total Platform team output

### EDUCATION

---

**Florida International University** | Bachelor of Arts in Journalism

December 2020
